Abbreviations: TCS, topical corticosteroids

^a Due to weighting of sample number between countries, the numbers might not add up with the total sample presented in Table 1 in the main part of the manuscript. ^b Includes the treatment groups orals, injectables and phototherapy. ^c Includes the groups "no current treatment", "never treated" and "do not know". ^d Disease severity according to the photographic guide in the past week. ^e Mild represents the grades "clear" and "almost clear" according to the photographic guide. ^f Moderate to severe represents the grades "moderate", "severe" and "very severe" according to the CHE photographic guide.
