Table SI. Prais-Winsten analysis for associations between ‘brittle nails’, search volume index, seasonality, humidity, and temperature in the northern hemisphere. *Signifies statistical significance ($P < 0.05$).

Season	Regression coefficient (95% confidence interval)	<i>P</i> -value
Spring (Mar–May)	Reference	Reference
Summer (June–Aug)	–24.02 (–57.51, 9.46)	0.170
Autumn (Sept–Nov)	2.70 (–6.47, 11.88)	0.568
Winter (Dec–Feb)	43.40 (34.23, 52.57)	0.004*
Temperature	–0.44 (–4.76, 3.87)	0.842
Humidity	–12.28 (–22.18, –2.40)	0.021*
