Supplemental Fig. S1. Baseline diagnostic accuracy by concordance status

Comparison of baseline diagnostic accuracy between concordant and discrepant diagnoses. Discrepant cases showed substantially lower baseline accuracy than concordant cases.

Supplemental Fig. S3. Outcome distributions in AI-hit and AI-miss cases**S3A.** Distribution of diagnostic outcomes in discrepant AI-hit cases.**S3B.** Distribution of diagnostic outcomes in discrepant AI-miss cases.

I = incorrect, C = correct.
