Correction

Article title: Chondrosarcoma in Norway 1990–2013; an epidemiological and prognostic observational study of a complete national cohort

Authors: Thorkildsen, J., Taksdal, I., Bjerkehagen, B., Haugland, H. K., Johannesen, T. B., Viset, T., Norum, O.-J., Bruland, Ø. & Zaikova, O.

Journal: *Acta Oncologica*

DOI: <http://dx.doi.org/10.1080/0284186X.2018.1554260>

When the above article was first published online, there were errors in the first paragraph of the ‘Statistics’ section.

The paragraph has now been corrected as follows:

Stata 14 software was used for statistical analysis. We present descriptive statistics of the cohort and Kaplan-Meier estimates for rates of local recurrence (LR), rates of metastasis (Met) and disease specific survival (DSS) at 2, 5 and 10 years of follow-up, as well as Kaplan-Meier curves. Log-rank test was used to test differences in survival curves. Statistical significance has been set at $p < .05$. Incidence has been calculated based on annual population data provided by Statistics Norway (SSB) in Excel with 95% confidence intervals calculated assuming a Poisson distribution.
