Appendix 1. Patients were asked to rank their top three follow-up preferences from a list of ten predefined surveillance options (Rank 1–3).

I would prefer appointments at the hospital with a doctor
I would prefer appointments at the hospital with a specialist nurse
I would prefer telephone appointments with a doctor
I would prefer telephone appointments with a specialist nurse
I would prefer my first hospital appointment with a doctor and then telephone appointments with a specialist nurse
I would prefer my first hospital appointment with a doctor and then hospital appointments with a specialist nurse
I would prefer to have my follow-up appointments with my General Practitioner (GP)
I would prefer to be discharged from follow-up after treatment as long as I know who to contact if I have problem
Other (please explain)
No preferences
