

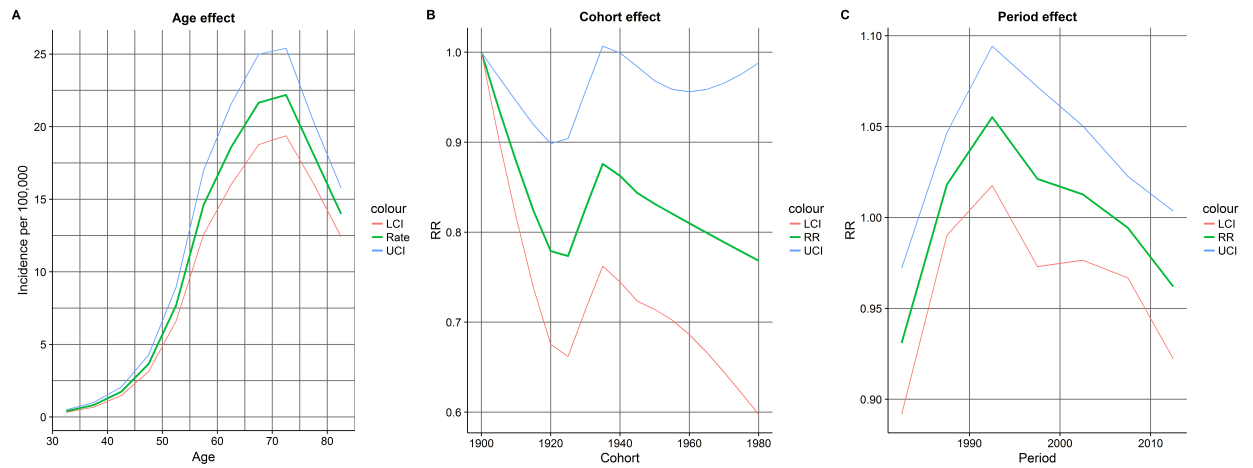

Figure 1: Age-period-cohort model for all laryngeal cancer.

Abbreviation: LCI: lower confidence interval, UCI: upper confidence interval, RR: rate ratio. The rate ratio in the cohort effect describes the ratio of age-specific rates in each cohort relative to reference cohort in 1980. The reference year was set to 1900 for the cohort effect and set to 1982,5 for the period effect.
